

**Sandip Foundation's  
SIEM  
Tech Fest-2020**

**Event Report**

**Tik-Tok**

The TikTok mobile app allows users to create a short video of themselves which often feature music in the background, can be sped up, slowed down or edited with a filter. To create a music video with the app, users can choose background music from a wide variety of music, edit with a filter and record a 15-second video with speed adjustments before uploading it to share with others on TikTok or other social platforms. They can also film short lip-sync videos to popular songs.

The app's "react" feature allows users to film their reaction to a specific video, over which it is placed in a small window that is movable around the screen. Its "duet" feature allows users to film a video aside another video.

The competition was about to create Tik-Tok video based on any entertainment or Innovative topic and submit it. These videos were then played in the event and judged by the Judges Prof. Mayuri Sonawane, Prof. S.B. Bhamare and Miss Gauri Salkar

**Total no. of participant: 18**

**Names of Winner and Runner up:**

Team no.	Sr. no.	Name of the student	Name of the institute	Place
	1	Amol Jagtap	Sandip Institute Of Pharmacy, Nashik	Department, SIEM
