6. Name of Event Coordinator:

       Dr. K.C. Nalavade

7. Event Details:

This workshop was organised for second year Computer students for basic development of webpage's using html5 and CSS. The session started with overall basics of html, tags, attributes etc. It was a complete hands-on workshop through which students were able to make creative and attractive webpage's.
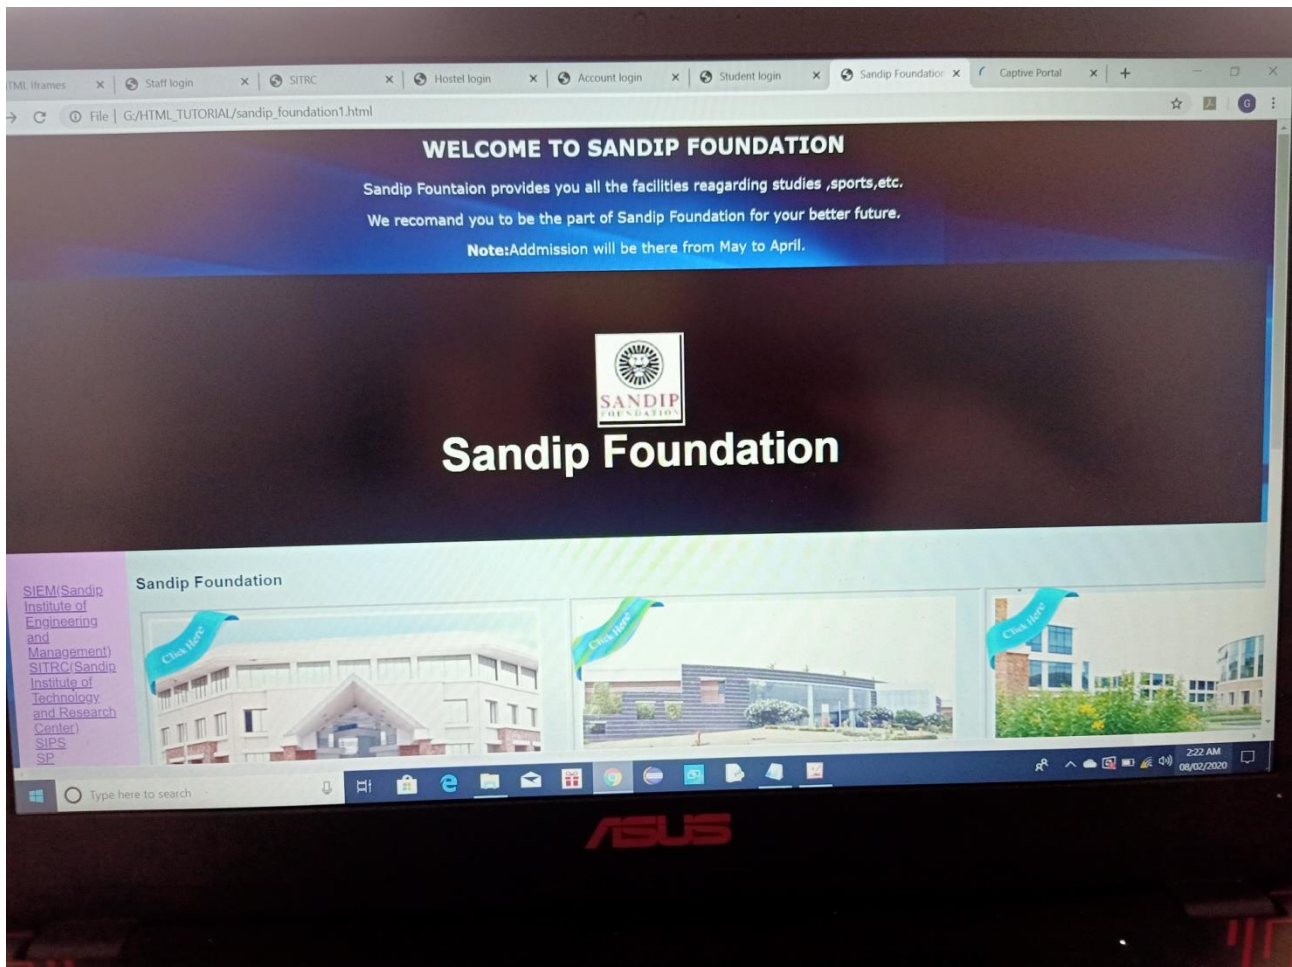

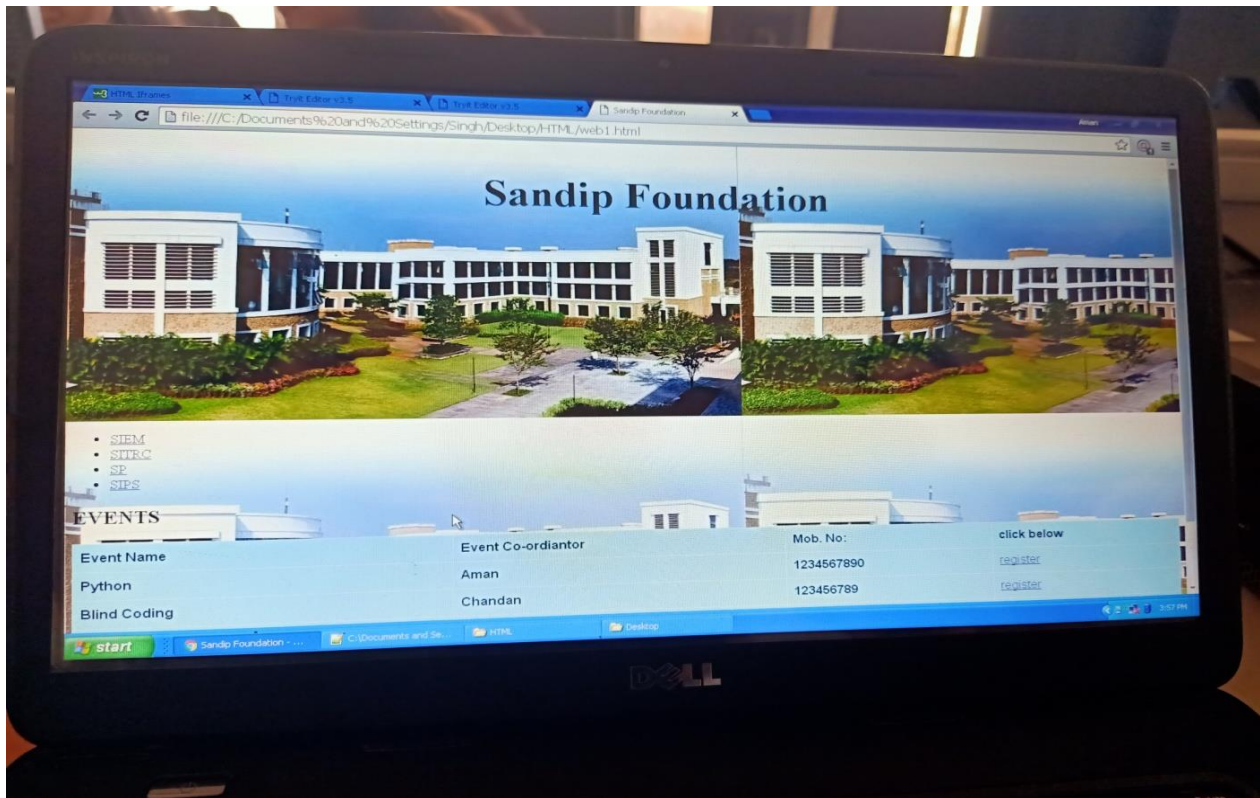

First day all basic tags for formatting were covered through which students designed webpage's. Second day Cascaded Style Sheets (CSS) was taught for every tag.

8. Event Outcome:

Students were given various tasks for designing different website pages and at the end of the session students showed there attractive and creative work by designing many webpage's.

9. Event Photos:

WebPages' Designed by students
