Management (SIEM) College Code - 5331**

Department of Electronics & Telecommunication

Event Title: SE, TE & BE Toppers Felicitation A.Y 2022-23

Event Date: 20th May 2023

Event Conduction Duration: 1 hrs

Event Venue: - TE-E&TC Classroom.

Participants – SE, TE & BE students from E & TC Department

Event coordinator: SAET, Student Association E&TC

Objectives:

Objective of this program is to congratulate toppers from SE, TE & BE classes. Faculties encourage students on how they should look very seriously towards their placements in last year. Also, how hard as well as soft skills plays important roll in dream job. HOD of E&TC department Prof. Risodkar mentor students that how students play very important role in overall development of department & academics. Placed students from last year shared their thoughts & views regarding their journey in the department. Aim of this event is to give vision to TE & SE students about their placement activity and to gear up for the same right now.

Outcome:

- SE & TE students get motivated by perceiving achievements of their senior friends.
- Students came to know that though they may get failure at first attempt but it may become first step towards their success by listening it from topper students' journey.
- Students get motivated by paying attention on inspiring speech by faculties.
- Heart touching true words by Prof. Risodkar guides students about their academic role in the department which concludes their resume in terms of good grades.
- Students understands how skills pay major attention in resume and in getting best job opportunities. Skills may in terms of academics and in terms of extra-curricular activities.
- Students realize that Communication skills, team work, Presentation skills, leadership pays important role in career development.
