- **Event Date:** 19/05/2023.
- **Event Conduction Duration:** 12.30 PM to 02.30 PM
- **Event Venue:** SIEM, Sandip Foundation, Nashik, Maharashtra
422002
- **Event Resource Person Details:** Mr. Anand Bise (CEO of Mechatol Pvt. Ltd., Pune)
- **Name of Event Coordinator:** Prof. K. Payal Senapaty
- **Event Objective & Outcome:**

Objectives:

Students who can complete their final project with Mechatol Pvt. Ltd., Pune, are sought after. Because it will be project-based learning, the students will better understand the workload in corporate and industries. To choose four groups (each with four students) out of 7 groups, Mr Anand Bise used an online interview process. The interview process was designed to identify the students who would undergo 11 training days. After the training process, the students will be assigned to different project works related to design and bill of materials. The interviewer was looking for students who would be punctual and have good knowledge on the basics of mechanical design.

Outcomes: Mr Anand Bise selected 16 students who are made into four groups for the training process. The students can complete the project, which will be

considered as their final-year project. In addition, they will have a good knowledge of real-time industrial work.

Total number of participants – 28
