Report:

On the 11th of November 2022, India gleamed with intellectual fervor as the nation celebrated National Education Day. Commemorating the birth anniversary of Maulana Abul Kalam Azad, a visionary educationist, the day echoed with a resounding commitment to knowledge, learning, and empowerment. Across the country, educational institutions organized seminars, workshops, and events, igniting discussions on the significance of quality education for societal progress. This day served as a reminder that education is not just a means of acquiring knowledge but a transformative force that shapes the destiny of our nation. Here at SIEM, Nashik, we celebrated with the guest Dr. Leena Ghalame with her highly motivated speech on outcome based education.
