### Event Report

The Event was organized as part of the initiative to celebrate the G20 Presidency Year. The event was marked by several competitions that showcased the participants' artistic abilities and innovation. Students and faculty members participated in contests and showed their models, where they demonstrated their creativity and commitment to environmental sustainability and Technology. The event aimed to inspire individuals to think outside the box and come up with innovative solutions to complex problems. It also emphasized the importance of creativity and originality in today's fast-paced world, where new ideas and inventions are essential for progress and development.

- A few of the ideas are as follows:
- Water level indicator and auto-cut technology in a water tank.
- A website for all innovative ideas and solution platforms.
- An affordable Automobile suspension quality testing device
