**Department of Electronics & Telecommunication**

**Event Title: One Week Virtual Training Workshop on "Latex Software: A Scientific Documentation"**

**Event Date: 6<sup>th</sup> -11<sup>th</sup> March 2023**

**Event Venue: - Online Mode**

**Participants: 82**

**Name of Resource Person:**

Prof. P. S. Aswale, Assistant Professor, E & TC, SIEM, Nashik

**Objective:**

- To empower all researchers use Latex for preparing technical reports, papers and thesis.
- Improve the quality of presentation in a well structure format.
- Provide basics of the Latex environment and guide through practical sessions
- Develop enough confidence in using Latex.
- Get beginners familiar with using latex

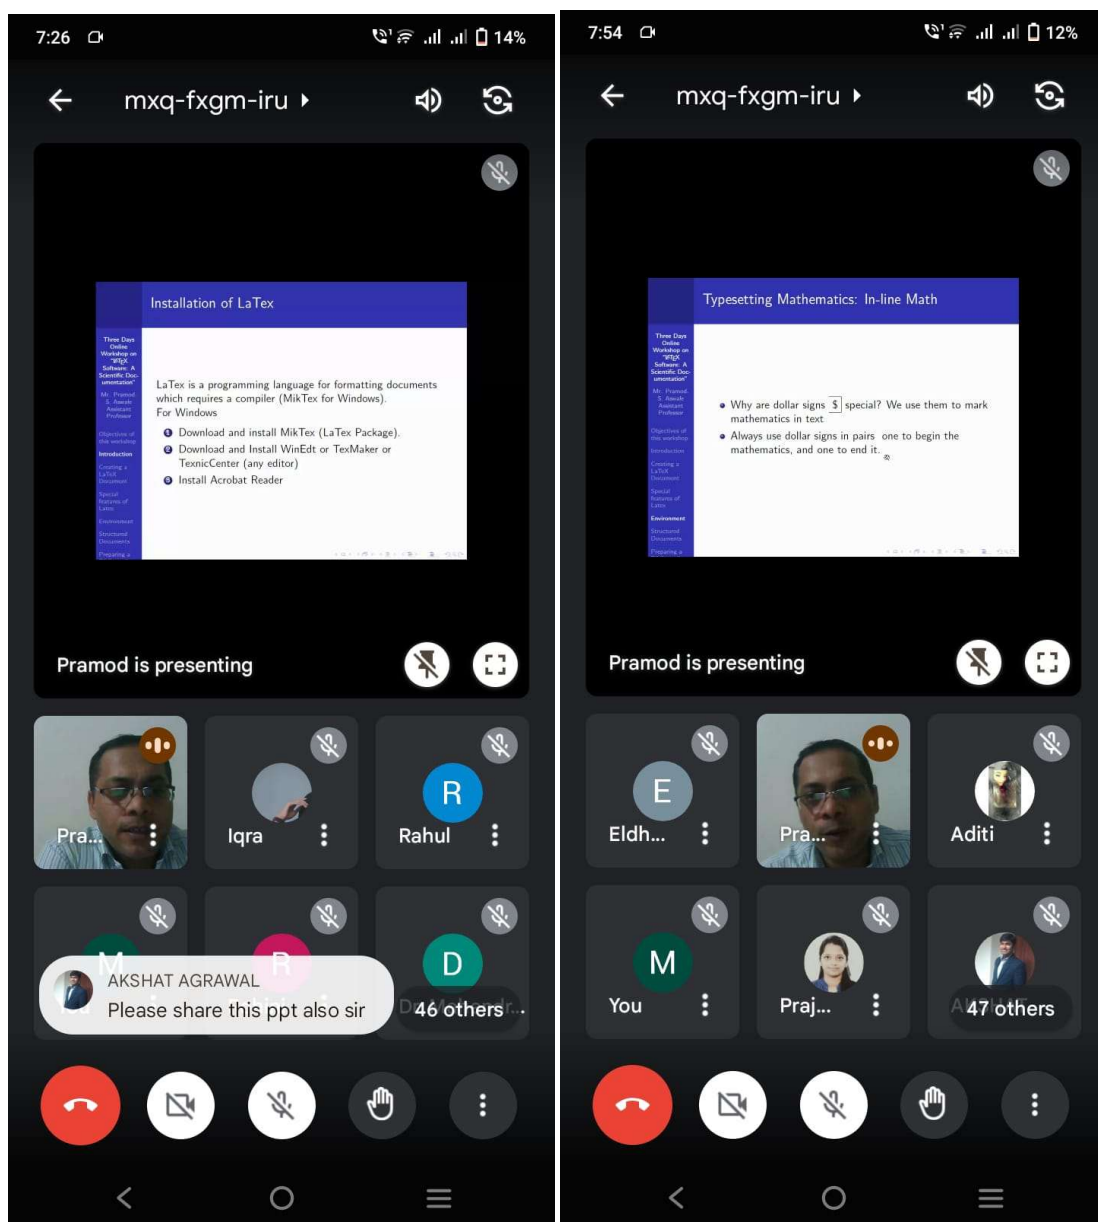

The participants engaged in hands-on practise learning sessions that helped them comprehend the LaTeX tool and its applications. Each participant's needs were taken into account when delivering the topic, and there was interactivity. During the practical session, Mr. Pramod S. Aswale demonstrated how simple it is to write mathematical equations in LaTeX. He gave a comprehensive explanation of the fundamentals of equations, math mode, mathematical symbols, sample programmes, and brackets and braces. In addition, he described how Beamer can be used to produce a power point presentation and how LaTeX is used to construct sections, tables, bibliographies, etc. Everyone in the class learned how to use LaTeX to modify an IEEE research paper and how to include images, sub-images, equations, tables, and cross references.

**Outcome:**

- Each participant can use basic commands of latex to prepare documents in Latex.
- Can perform basic operations like create a table, insert figure, insert equation etc in a document.
- Each participant modified an IEEE research paper using Latex, learning how to include images, subimages, equations, tables, and cross references. Now they can confidently insert all of these into any IEEE, Elsevier, or Springer latex format.
- Also, they learn how to create other Latex documents, such as seminar reports and resumes.

Participants were provided a LaTeX assignment to be uploaded on the given Google drive URL around the end of the session. This workshop benefited 58 participants.
