

REPORT ON

GANESHA IDOL MAKING COMPETITION

Event Title:	GANESHA IDOL MAKING COMPETITION
Duration:	2 Hrs.
Venue:	SIEM, Civil Engineering Department
Name of Event Coordinator:	Prof. S. R. Kamble & Prof. S. S. Bahalkar
Day & Date:	Thursday 14/9/2023
Time:	11.00am to 01.00pm
Participants:	Students

Event Summary:

The Sandip Foundation, Sandip Institute of Engineering & Management, Department of Civil Engineering hosted a "Ganesh Idol Making Competition" on September 14th, 2023.

All students were invited to take part in this event to create a homemade green Ganesha by the department of civil engineering. And encourage everyone to use their creativity to make their own version of the eco-friendly Ganesha idol.

This event was held at the department for all of the current year's students. All of the ASCE's passionate members helped with the event's preliminary planning. The event material (Shadu Matti) was collected at the location together with additional décor material and tools. All of the groups assembled at the place, and the participants began the event with tremendous zeal. As it was a group event, the students' closeness and cooperation, together with solid planning and time management, ensured the event's success. The event coordinators observed the idols made by each group with distinct unique concepts after 2 hours. Flowers were used to embellish the idols to make them more environmentally friendly. All of the groups were praised for their innovation and participation.

For prize distribution Principal, Dr. D. P. Patil were invited, Certificates to all participants and Token of Appreciation were given by hands of Principal, Dean Academics, HoD Civil and by other staff.

HoD. Dr. Bharat N. Mulay and Prof. Ketan A. Salunke congratulated all the participants & organizing members for successful conduction of the program.

Outcome:

After completion of seminar all the participants came to know following details:

1. The value of a green Ganesha
2. Students were given the opportunity to showcase their artistic and creative abilities.
3. Awareness of pollution and its solutions among all students.
4. Group Activity gave the students skills of team work, unity, and time management
