

**Department of Mechanical Engineering**

**A.Y. 2023-24 SEM-V**

**Report on Industrial visit**

- 1. Event Title:** BE Industrial Visit at Kadva Cooperative Sugar Factory, Dindori, Nashik
- 2. Event Date:** 26/10/2023
- 3. Event Conduction Duration:** 10:00 AM to 04:00 PM
- 4. Event Venue:** Kadva Cooperative Sugar Factory, Dindori, Nashik
- 5. Event Resource Person /Guest Details:** Managing Director, Kadva Cooperative Sugar Factory, Dindori
- 6. Name of Event Coordinator:** Dr. Kamlesh Paswan
- 7. Expected Audience:** Students of BE
- 8. Number of Participants:** 39
- 9. Event Objectives & Outcomes /Highlights:**

**Objectives:**

- To offer students a firsthand look at the processes, machinery, and operations involved in sugar production, allowing them to apply their theoretical knowledge to real-world scenarios.
- To help students understand the engineering principles and technologies employed in large-scale industrial processes, such as extraction, purification, and packaging of sugar.
- To inspire students by showcasing the potential engineering careers within the food processing and manufacturing sector, broadening their career perspectives.

**Outcomes/ Highlights:**

A recent visit to a sugar factory by a group of engineering students proved to be an insightful and educational experience. It helps the students in exploring the intricacies of sugar production, we witnessed the complex machinery and processes involved in refining sugar from raw sugarcane. The visit provided a practical application of engineering principles, as we observed the optimization of various mechanical and chemical processes. It highlighted the importance of efficient manufacturing techniques in large-scale industries and offered valuable real-world insights that will undoubtedly benefit our engineering education and future careers
