## **Session on Energy Conservation Day 2023**

**Organized by Sandip Institute of Engineering and Management, Nashik**

**Title:** Energy Conservation Day

**Coordinator:** Dr. A. S. Dube

**Date:** 21 December 2023

### **Introduction:**

On 21 December 2023, Sandip Institute of Engineering and Management, Nashik, took a proactive step towards promoting sustainable practices by organizing a session in commemoration of Energy Conservation Day. The event aimed to raise awareness and instill a sense of responsibility among students regarding the judicious use of energy resources.

### **Objective:**

The primary objective of the session was to enlighten students about the critical role of energy conservation in building a sustainable future. Dr. A.S. Dube, the esteemed coordinator, designed the session to provide participants with insights into current energy challenges, innovative solutions, and the significance of individual contributions to the cause.

### **Session Highlights:**

The session commenced with an inaugural address by Dr. A.S. Dube, emphasizing the urgency of adopting energy-efficient practices in a world grappling with depleting resources. Eminent speakers from the energy sector shared their expertise, shedding light on the latest advancements in renewable energy and the potential impact of technology on energy conservation.

### **Outcome:**

The session proved to be highly informative, leaving participants with a heightened awareness of the pressing need for energy conservation. Students gained a deeper understanding of the interconnectedness between energy consumption patterns and environmental sustainability.

In conclusion, the Session on Energy Conservation Day 2023 at Sandip Institute of Engineering and Management served as a catalyst for change, encouraging a collective effort towards a more sustainable and energy-efficient future. The institute, under the leadership of Dr. A.S. Dube, continues to play a vital role in shaping environmentally responsible leaders for tomorrow.
