

COMPUTER ENGINEERING STUDENT ASSOCIATION

Event: - Valorant

Event Head Co-ordinator: - Tanmay Chaudhari

Event venue: - Software lab computer department, SIEM

Date of conduct: 16th and 17th February

Introduction to Event (Valorant)

This event was designed to bring together Valorant enthusiasts and fans to showcase their skills, compete against each other, and have fun. It featured an exciting tournament where teams battled it out in intense matches to determine who comes out on top. Our goal was to provide a platform for students to connect, learn from each other, and have a great time.

On 27th April, the knockout round took place, where seven teams competed against each other in intense matches. This round was crucial as it determined which teams would progress to the next stage of the competition. The knockout round was highly competitive, with each team giving their best to secure a place in the semi-finals.

On 28th April, the semi-finals and finals were held. Four teams qualified for the semi-finals, where they battled it out in two intense matches. The top two teams from the semi-finals progressed to the finals, which was the ultimate showdown to determine the winner of the tournament. The finals were a highly anticipated event, and the two teams gave it their all in an exciting and competitive match. In the end, one team emerged victorious and was declared the winner of the tournament.

Overall, the Valorant event was a huge success, and it provided a great platform for students to showcase their skills and connect with other Valorant enthusiasts. The event was well-organized, and the participants thoroughly enjoyed themselves. We hope to host more such events in the future to continue promoting the gaming culture in our college
