**Event Title:** Industrial visit at Esmart Energy Solution.

**Event Scheduled:** 31<sup>st</sup> July 2024 (11:00AM- 12:30PM)

**Timing:** 11:00 am onwards.

**Event Venue:** Esmart Energy Solution, Satpur, Nashik.

**Participants:** TE students of E&TC Department

**Name of Faculty coordinator:** Prof. Amit Kr. Mishra, faculty from E&TC department

**Objectives:**

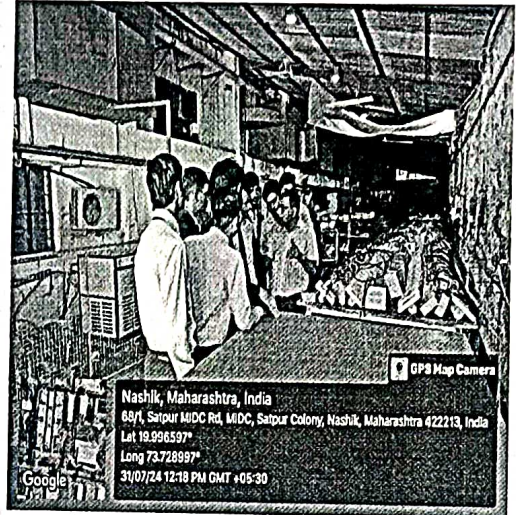

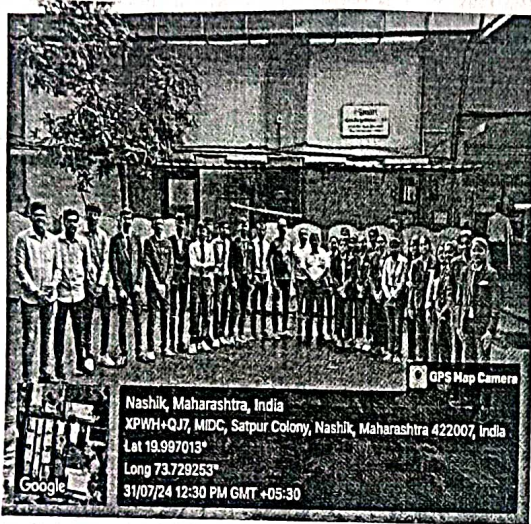

The objective of an industrial visit for engineering students includes the following key points:

1. **Practical Exposure:** Provide students with real-world exposure to industrial processes, machinery, and work environments, bridging the gap between theoretical knowledge and practical application.
2. **Understanding Industry Practices:** Help students understand current industry practices, standards, and technologies used in their field of study, enhancing their knowledge and keeping them updated with industry trends.
3. **Enhancing Technical Skills:** Allow students to observe and learn technical skills and operational techniques directly from industry professionals, improving their technical competency.
4. **Career Awareness:** Give students insights into various career options and roles available in the industry, helping them make informed career choices and understand the skills required for different job profiles.
