DEPARTMENT OF COMPUTER ENGINEERING

- **Objectives:** The Microsoft Azure AZ-900 course aims to provide foundational knowledge of cloud services and how they are provided with Microsoft Azure. It covers basic cloud concepts, core Azure services, solutions and management tools, security and network security features, as well as identity, governance, privacy, and compliance. This course is designed for students who are new to Azure and want to gain a solid understanding of its capabilities and benefits.
- **Outcome :** Upon completing the Microsoft Azure AZ-900 course, students will have a clear understanding of core cloud concepts and Azure services. They will be able to identify and describe Azure's core services and solutions, understand Azure's security, privacy, compliance, and trust, and manage Azure costs and service level agreements. This foundational knowledge will prepare students for further Azure certifications and roles that involve working with Microsoft Azure.
