Event Title: Seminar on Software development.

Event Scheduled: 17th October, 2024 (3:00 PM- 5:00 PM)

Timing: 3:00 pm onwards.

Event Venue: Civil Seminar hall, SIEM, Sandip Foundation, Nashik

Resource Person: Mr. Zaheer Ameer Co founder and CEO of Buzz pixel. And Mr. Deepak Aher , CTO of the company.

Participants: Student of TE & BE, E&TC department

Name of Faculty coordinator: Prof. Amit Kr. Mishra, faculty from E&TC departmenty

Objectives:

The objective of a seminar on software development typically includes the following goals:

1. **Knowledge Sharing**: Provide participants with a comprehensive understanding of software development processes, methodologies, and technologies.
2. **Skill Development**: Help attendees improve their technical and problem-solving skills by introducing them to best practices, tools, and programming techniques used in modern software development.
3. **Industry Trends**: Discuss the latest trends in software development, such as agile methodologies, DevOps, cloud computing, AI integration, and microservices architecture, to keep participants updated with current practices.
4. **Collaboration and Networking**: Create opportunities for professionals, students, and developers to network and share ideas, fostering collaboration and innovation within the software development community.
5. **Problem-Solving**: Encourage critical thinking and hands-on learning through workshops or case studies that allow participants to solve real-world software development challenges.
6. **Career Guidance**: Offer insights into career paths, emerging roles, and growth opportunities in software development, helping attendees understand how to advance in their careers.
7. **Project Management**: Introduce participants to effective project management strategies, including risk management, budgeting, scheduling, and team coordination in the context of software development.

The seminar would aim to balance theoretical knowledge with practical application, ensuring participants leave with both enhanced skills and new perspectives.
