Event Title: Seminar on Embedded System.

Event Scheduled: 17th October, 2024 (11:00 AM- 1:00 PM)

Timing: 11:00 am onwards.

Event Venue: Civil Seminar hall, SIEM, Sandip Foundation, Nashik

Resource Person: Sandip Patil, Vector India

Participants: Student of TE & BE, E&TC department

Name of Faculty coordinator: Prof. Amit Kr. Mishra, faculty from E&TC department

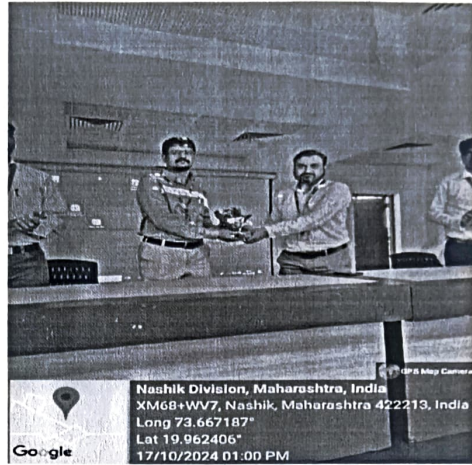

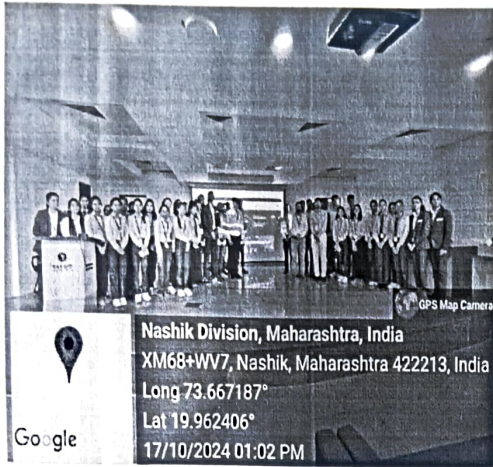

Objective: The objective of a session on Embedded system typically include:

- The objective of an expert session on embedded systems is to provide an in-depth exploration of advanced concepts, design principles, and real-world applications of embedded technology.
- The session aims to deepen participants' understanding of complex embedded architectures, real-time operating systems (RTOS), and efficient software development for constrained environments
- The session emphasizes the importance of robust communication protocols, security, and scalability in embedded applications, particularly in industries like automotive, healthcare, and IoT.
