

**Event Title:** Expert lecture on Cloud Computing

**Event Scheduled:** 4<sup>th</sup> Oct, 2024 (10:00AM- 12:00 PM)

**Resource Person:** Prof. Nilesh Madake, Computer Engineering Deptt, SIEM, Sandip Foundation, Nashik

**Timing:** 10:00 am onwards.

**Event Venue:** TE classroom, SIEM, Sandip Foundation, Nashik

**Participants:** BE students of E&TC Department

**Name of Faculty coordinator:** Prof. Akhilesh Kumar, faculty of E&TC department

**Objectives:**

The objective of an expert session on cloud computing can encompass several key goals, including:

1. **Understanding Cloud Fundamentals:** To provide participants with a foundational knowledge of cloud computing concepts, including types of cloud services (IaaS, PaaS, SaaS) and deployment models (public, private, hybrid).
2. **Exploring Use Cases:** To highlight real-world applications of cloud computing across various industries, demonstrating its impact on business efficiency and innovation.
3. **Discussing Cloud Security:** To address common security concerns and best practices for safeguarding data in the cloud, ensuring that participants understand the importance of security measures.
4. **Showcasing Emerging Trends:** To introduce participants to the latest trends in cloud technology, such as server less computing, edge computing, and AI integration.
5. **Providing Practical Insights:** To offer practical advice and strategies for implementing cloud solutions, including migration processes and cost management.
6. **Encouraging Networking and Collaboration:** To foster connections among participants, encouraging collaboration and the sharing of experiences related to cloud computing.
7. **Q&A and Discussion:** To create an interactive environment where participants can ask questions and engage in discussions, enhancing their understanding of the subject.

These objectives aim to empower participants with knowledge and skills that can be applied in their respective fields.

Expert Talk on cloud computing
