B.E Project Synopsis
PROJECT TITLE (20pt. bold)
PROJECT SYNOPSIS (14pt. bold)

Abstract (250 to 300 words)

The abstract part will include the brief introduction about the project to be developed, technology used, field of project (if specialized one), any special technical terms about the project.

Keywords: [Unique Key Concept- 4-5 Words]

Objectives: [3-4]

Literature Review: (reviews of 3 IEEE papers -3 Paragraph)

Feasibility Study: (should not exceed 1 page)

This will describe the very first step of software engineering i.e. feasibility study of the project that include the feasibility, need and significance of the project

Methodology/ Planning of work (should not exceed 1 page)

Research type, unit, methods, and tools of data collection / analysis. Methodology will include the steps to be followed to achieve the objective of the project during the project development.

Facilities required for proposed work (1 paragraph)

Software/Hardware required for the development of the project.

Expected outcomes: (1 paragraph)

References [IEEE format]

Base Paper should be on Top.

Here specify the description of the study material referred for the development of project.

Submitted By-

1. Name of Project Group Members
2. Class Roll No.
