

Department of Electronics and Telecommunication Engineering

Date– 14th Jan 2024

Notice

All students of E & TC department are here by informed that Workshop on “MATLAB” will be organized on 16th Jan 2024 at 10:00 am. The resource person for this session is “Prof. Sharmila M”. The session is very informative and productive for all the students. So it is mandatory to all students to remain present for this session.

Institute Vision

We at SIEM aspire to be a globally recognized Institute that delivers a world class education to outstanding intellectual by nurturing and grooming by their interest, creative abilities and thrusts to acquire a life-long learning so as to imbibe values of their commitment towards society.

Department Vision

To excel in the field of Electronics and Telecommunication Engineering so as to create competent professionals focusing on the needs of industry and society with professional ethics.

EVENT REPORT

On

Workshop on MATLAB, in association with ISTE

Event Title: Workshop on MATLAB, in association with ISTE

Event Scheduled: 16th Jan, 2024 (10:00AM- 12:00 PM)

Resource Person: Prof. Sharmila M, SITRC, Nashik

Timing: 10:00 am onwards.

Event Venue: TE classroom, SIEM, Sandip Foundation, Nashik

Participants: BE, TE & SE students of E&TC Department

Name of Faculty coordinator: Prof. Mosam Sangole, faculty of E&TC department

Objectives:

The objective of a workshop on MATLAB is to provide participants with the foundational skills and knowledge to use MATLAB effectively for numerical computing, data analysis, and problem-solving across various fields. The workshop aims to enhance participants' ability to leverage MATLAB's tools for academic, research, and professional projects. Specific objectives may include:

Introduction to MATLAB

- Familiarizing participants with the MATLAB environment, interface, and basic functionalities.
- Understanding the basics of scripting, commands, and file management in MATLAB.

Building Core Skills

- Learning to perform matrix operations, numerical computations, and data visualizations.
- Writing and debugging MATLAB scripts and functions.

Exploring Data Analysis and Visualization

- Importing, processing, and analyzing data using MATLAB.
- Creating plots and visualizations to interpret and present data effectively.

- Applying MATLAB to solve real-world problems in engineering, science, and mathematics.
- Using built-in toolboxes for specialized tasks such as signal processing, optimization, and control systems.

Encouraging Practical Applications

- Implementing MATLAB in academic projects, research work, and industrial applications.
- Demonstrating case studies or hands-on projects relevant to the participants' fields.
